This application is in condition for allowance except for the following formal matters:

See the comments hereinafter.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Newly submitted claims 51-60 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The claims already examined do not have the step of "feeding the flexible substrate through an apparatus ... as recited in claim 51 and therefore claims 51-60 are held to be patentable different the claims that were originally presented in this Application.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 51-60 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claims 1, 3-14, 19, 26-28, 31, 36, 41, 45-50 and 61-63 are held to be allowable.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to C. J. Arbes whose telephone number is 571-272-4563. The examiner can normally be reached on M, T, R and F from 8 to 6.
